

Final Project Report

Project Summary

The wealth management data migration project successfully migrated all active client and portfolio data to the new platform.

Key Achievements

- Improved data quality
- Reduced duplicate records
- Faster reporting
- Enhanced advisor servicing

Lessons Learned

Early data profiling and cleansing significantly reduce migration issues.

Business Benefits

- Better client servicing
- Improved reporting accuracy
- Reduced operational effort

Conclusion

The organization successfully modernized its wealth management operations through the implementation of the new platform.
